DODGE BROTHERS CLOSED CAR

The Dodge stands alone for service. For the rough work of the country roads it stands up better than any car built, at any price.

When to this is added the unusual degree of riding ease, resulting from the long underslung springs, deeper seats and deeper body length, and the graceful lines of the new models, you have the utmost in car value.

Ask any Dodge owner in your district.

Business Sedan **\$2050**

Standard News

Mr. and Mrs. Bert Horton are being congratulated on the birth of a daughter.

Threshing in this district is about eighty per cent completed. The weather situation is still very serious. A car every two or three days being allotted to each of the elevators. Those who attended the dance at Chancery on Halloween report a very good time.

Walter Hansen returned from the General Hospital, Calgary, last Friday.

Mr. Carl Sorvansen has moved downtown for the winter months and is residing in the Parson and Helmbocker house.

The youngsters were evidently busy on Halloween night by the look of the town the next morning. Windows were soaped and main street looked like a regular second-hand store.

Prohibition Meeting

A meeting in the interests of the prohibition party was held in the Union Church on Thursday evening last. There was an attendance of about thirty, Rev. A. H. Rowe presiding.

The speakers were Mr. Hunter, Calgary, and Dr. G. D. Stanley, also of Calgary.

Dr. Stanley spoke first, and spoke largely on conditions in B.C. as they existed under prohibition. He admitted imperfections in the present Alberta Act, but said that it was in the right direction, and it had made conditions in Alberta much better than they were in B.C.

Dr. Stanley claimed that clause "I" could not bear any other interpretation than that it meant the return of the bar, and though the Moderates were trying to make believe that it did not do so, yet the Government would take care to see that the people actually voted for, and it was voted for Clause "I" they would again be introducing the old bar system, which they had been on their side to get rid of in 1915. Prohibition, despite its imperfect enforcement, had been a boon for the Province, and he hoped that it would be continued in force after the plebiscite on November 5.

A number of questions were asked. At the conclusion of Dr. Stanley's address a hearty vote of thanks was given the speakers.

HUSKY PUPS BORN AT CHATEAU FRONTENAC

1 and 2—These are the pups. 3—Makwahie. 4—This pup pointers very nice. 5—These are the pups. 6—These are the pups.

THE Hudson Bay dog team which has been such a popular feature in connection with the winter sports activities inaugurated by the Chateau Frontenac at Quebec three years ago, shows promise of future teams of exceptional merit. Two very fine litters have been produced. On the morning of April 15th, the Indian who is taking care of them was delighted to find that Wobeka, a beautiful white female husky, had presented as her contribution to Quebec winter sports, three pups which very much resemble wolf directions with the leader turning around with a whelp. One very fine pup developed rapidly and was named Neph. Wobeka was jealous of the attention showed the family of her team mate and, not to be outdone, presented the Indian with a litter of eight. Great hopes are entertained for the future of this litter as wolf blood runs strongly in the veins of Makwahie, the sire, a splendid beast of some 100 lbs. with shaggy grey coat, long vulpine muzzle, pointed ears and pale amber eyes glinting through narrow

widow, daughter of Lieut.-Col. A. McE. Lillian, all of Toronto. His only son, Stewart, and three daughters, Mrs. Berrie, was killed at St. Julien in attack. F. D. Livesey, of Toronto, Gerald Nash, Miss Denzie and April, 1915, in the ranks of the Eighth is a nephew.

SURVEY OF TAR SANDS

A survey of the tar sand deposits north of Edmonton at McMurray, has just been completed. The official report of the federal department of mines.

Rockyford Locals

A number of Rockyford Masons paid a fraternal visit to Strathmore on Monday evening, returning a visit paid by the Strathmore brethren to Rockyford some weeks previous.

Mr. and Mrs. W. A. Hatt are rejoicing in the birth of a son at Rockyford hospital on Saturday, November 3.

Rockyford went wet election day, 4,000 "A" musing 69 votes as against 45 for "B". The election was conducted throughout in an amiable and friendly manner, though the workers on both sides were keen.

The skating rink is going ahead. The committee have met several times during the week.

Rockyford has now eight rural lines, the north one having been opened for business this week. August Stenn has also had installed phone 611.

The special anniversary services of Rockyford Union Church, held on Sunday, November 4th, drew large congregations at both services. Dr. G. W. Kerby delivered interesting and eloquent addresses at both morning and afternoon services, while the choir, with the English Young People and Rockyford Quartette rendered special music in a fine manner. The solo by Mrs. Chapman were also much appreciated. Miss Sallie Spillard accompanied on the piano in her usual efficient manner. The church was appropriately decorated for Thanksgiving. Dr. Kerby, in the course of the services, congratulated the pastor, Rev. J. H. Garden, and the congregation on the success that had attended their efforts in this field.

Bazaar and Tombola on November 12th

One of the big events of Rockyford will be the big Thanksgiving day bazaar, dinner and dance, under auspices of St. Rita's Catholic Church, to be held in the old Town Hall.

The ladies of the church are doing their utmost to ensure an enjoyable time to everyone who attends, and the experience in the past of affairs sponsored by St. Rita's makes this a certainty.

For those of a speculative turn of mind there will be a public wheel and raffle of poultry together with the drawings. Everyone is invited to an aid.

Anniversary Supper

A big crowd attended the annual turkey supper given by the Ladies of the Union Church on Monday evening. The noble bird of Thanksgiving was well-cooked and in large quantities, and with other edibles provided, made an excellent supper, and the ladies are entitled to hearty thanks. Followed by the supper a fine musical program was rendered, and Dr. G. W. Kerby gave an excellent address on "Rural Present Day Problems."

Bachelors' Dance

Rockyford ladies proved that they have long of pep when they put on a big dance on Halloween night last Wednesday. Everyone present had a good time. The music was good, the Drummer boys certainly putting pep into the dance by the way they played.

Costumes were numerous, original and pretty. Mrs. E. Hamby, Strathmore, dressed as "Folly" was awarded 1st prize for best ladies costume. The prize for lady's best costume was awarded to Miss M. Peters, dressed as an Indian, while the prize for best boys' fancy dress costume was awarded to Mr. H. E. Hingworth, of a "King" and he looked every inch a king. Earl Brown made a good "coon" and was awarded the prize for best goat's comic.

The judges were Mrs. H. Kaiterhagen, Mr. C. H. Walrod, and Mr. A. F. Thompson, of Leduc. Their task was by no means an easy one, as they had many good costumes to choose from, and their choice met with general approbation.

The boys have certainly made good this time.

"A Wonderful Woman"

A remarkable picture of a wonderful woman whose life story provides chapter after chapter of astounding heroism, extraordinary self-sacrifice and almost miraculous achievements and almost incredible achievements. The picture is being given in each theatre of the Rockyford and Weekly Star of Montreal. The story of "The Wonderful Woman" can also be obtained cost free by sending a post card to the Family Herald and Weekly Star.

New Lamp Burns

94 p.c. Air

Bests Electric and Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 25 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise — no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil). The inventor, J. C. Johnson, 276 McManis Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without expense or money make \$250 to \$500 per month. 29-110

FA LL STOCK SHOW

The fall stock show and sale under the auspices of the livestock associations and the Alberta department of agriculture, is being held the coming week at the exhibition grounds, Calgary.

Baintree Notes

— 0 —

Many residents of the district expect a portion of last week taking in the bright lights of Calgary. Billy Lyons and Frank Logan went by car on Wednesday, while Mr. and Mrs. F. E. Wyman motored in on Thursday.

Mr. and Mrs. E. J. Lyons went by train on Wednesday to see young Bill at California.

Ed was a pretty good kid, and whether he becomes a movie star, or a great pitcher we are certain he won't forget his old pals of the "Baintrees".

It must have been one of our tribulation friends to learn that Madame Melba sang "Comme l'oiseau" the day on her recent visit to Calgary.

A large number of people turned out for the church social held in the school house last Friday. The Rev. John Garden delivered a splendid illustrated lecture on "Domestic Scotland", which was greatly enjoyed by everyone.

An excellent programme of music and readings preceded the lecture. The following artists all helping to make the evening a most enjoyable one: Mrs. P. J. Lyons, Miss Francis Wyman, Fay Trunk, Dave Lamberton, and also the other pupils of the school.

We nearly forgot to include little Bernadine Chapman, who is a real treat to listen to.

Hot lunches are being served daily at the school house.

Test you wish you were back to short pants and dirty faces once more. We can hear you all say "The year '18".

At the present time we don't see what chance of the liquor act ever through, so long as what confidence in the present price, while stable and unadulterated is our drink, even when we met a friend who is willing to set us up.

With the pool in operation many farmers are hoping for an improvement in the price of wheat, although

Advertisers, Attention

The Strathmore & Bow Valley Standard has just installed the Bonnet-Brown Advertising Machine and Stereotyping Machine.

You will now receive the same ad service that the large metropolitan newspapers render their advertisers.

ILLUSTRATIONS THAT HELP
Under this splendid New Service Plan, we receive fresh each month, ads and illustrations for every kind of advertising.

We receive these illustrations in matrix form—a paper mold of the cut-outs. This new stereotyping machine enables us to pour hot metal into this form and make a plate for printing the illustration in the Strathmore Standard, or on a circular.

Advertisers who receive matrices of their merchandise from their manufacturers or who are sales can bring them to us and we will make cuts for use in their advertising.

This service, we are sure, will result in a greater increased business for every advertiser who takes advantage of it.

You will be better able to tell the people of Strathmore and vicinity about what you have to sell or what you want to buy.

And you can put your message across in a concise, easily understood manner that will be pleasing to readers of the Strathmore Standard, and most satisfactory to you in the greater results obtained.

And, in addition to being able to supply you with suitable cuts for illustrating your ads, we are prepared to furnish advertisements covering practically every line of business.

These ads have all been written by competent advertising experts—

Organised Contract Holders Decide to Fight C.P.R.

About one hundred delegates representing contract holders on C.P.R. roads in various sections of the province, met in Calgary on Tuesday evening, and decided to recommend those associated with them not to sign the Company's new \$1,000,000 payment plan. The delegates decided to sign the agreement, and stated that if the railroad corporation failed to effect a settlement as threatened in their offer, the case would be fought in the Canadian courts and would be taken to the policy council of British Columbia.

It has been announced that \$125,000 has been pledged by the contract holders who joined the association with which to fight the railroad company's offer. If necessary, the contract holders decided to try and push their case against the C.P.R. to a final court decision. The C.P.R. takes collection proceedings against the farmers as threatened in their letter. The farmers were in session for five hours and a half.

The official word of the resolution passed is as follows: "We, the C.P.R. contract holders, at mass meeting assembled to consider the C.P.R. circular letter of October 11, 1918, with great disappointment their statement that they cannot sign the same will not entertain the proposals submitted to them on June 23, and we to instruct our executive committee to make request them to consider their decision, not only for the mutual benefit of the company and settlers, but to maintain in general."

The meeting also decided that a letter be sent to the Canadian Pacific emphasizing the fact that it was not a few scattered persons who were making the demands, but a accredited body of representative chosen by the association.

A resolution to the effect that the original demands made by the association stand, and that the association stand along the same line to obtain terms as it has been doing in the past, was also passed.

The executive committee was instructed to advise the association in regard to homestead lands in the Dominion, and report back to the association.

The secretary read a letter from the Calgary Board of Trade explaining that all delegates to any conventions were appointed by the board of trade, and as they do not meet until Wednesday, a delegate could not be appointed in time to attend the meeting.

Original Proposals
The original proposals which the contract holders are asking the C.P.R. to adopt are as follows:

1. Cancel all unpaid accrued and accruing interest charges since 1915.
2. Defeat all payments of principal until the spring of 1925.
3. That all payments made since January 1, 1915, be applied on principal.
4. That as a basis of further settlement new contracts be entered into, effective April 1, 1925, under the Dominion government re-emption plan with 20 equal annual payments of principal with no interest charges excepting on payments of principal which have become overdue, and which shall bear interest at the rate of 2 percent until paid.
5. That there shall be a contract limit of 225 per acre exclusive of improvements.
6. That water rentals shall not exceed in any case \$1 per acre.
7. That where the contract holder is not a resident farmer, that he should sign his holdings, he shall only participate in the above contract provided he agrees to pass on the new terms to the resident purchaser.
8. That where it is found that the land has not the proper under drainage and is bringing alkali to the surface in sufficient quantities to destroy vegetation, the purchaser shall be entitled to a refund of all payments made or charged against such lands.
9. That where there is not the natural drainage to take care of waste water, the C.P.R. shall assume all responsibility.

The above decision was arrived at following a debate in evening which (Continued on another page).

DIRECTOR OF TECHNICAL EDUCATION
W. G. Carpenter for some years superintendent of schools in Edmonton, has been appointed by the provincial government to be director of technical education in the province, and principal of the new technical institute at Calgary.

Local Holdings

OF LOCAL INTEREST
Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68

A new information directory for all Strathmore residents, Strathmore edition, has been printed, and copies may be had by those subscribers whose post office is Strathmore from the office of the Standard. Cards to other post offices have been sent by mail. 275 copies have been printed, allowing one to each phone. There are no charges, the cards being issued free. A number of new phones have been installed, and many numbers awarded, since the publication of the last directory, and the new cards will be found very useful.

Chris Christensen's two outfits completed threshing on the Namata Farm last week. The average yield for the farm was between 20 and 25 bushels on wheat.

The many friends of Mr. S. J. Perna, for a number of years in charge of the C.P.R. Demonstration Farm, will be pleased to know, though they regret his departure, that he has been offered and accepted a position as poultry inspector for the three prairie provinces under the Federal Government. His chief against the sale of brooding chickens under false description, and to assist in the production of pure-bred poultry. Perna took over his new duties on November 1st. It is not considered likely that an appointment will be made to his position at the farm until the close of the year. The Department at present being run by his assistant. During his term with the company he has converted his department into a highly profitable one, and has also been of much assistance to poultry breeders throughout the district.

The Union Church, Strathmore, has issued a lettering giving the order of services until the close of the year, and the subjects to be dealt with.

Mrs. A. P. Gray started back last week from a tour to Scotland.

Mr. E. Borken is stated to have burned 22 barrels wheat per acre on 125 acres.

George Thurston and Sid Watson, the latter, who is said to be attending a prohibition meeting in Nightingale, being the only two males present. George asked some questions, but as might have been expected, did not get the last word.

One result of the big crop, so far as Nightingale is concerned is that H. Hilton has been arising at 6.30 and hauling grain to the elevator. "The Mayor of Nightingale says he will handle a team well for an alms."

Sam Myshakine came through the Jasper earthquake all right according to information received here by his brother Henry.

The phlebotomy was conducted throughout very go & naturally, and with very few exceptions, which is another argument against conducting public affairs on the old party system.

The editor was out along the east road on Sunday, driving down the high spots and the low ones. A farmer said of town plowed by the same evening stating that he had passed with a load of grain as we were doing our best to go through the road of the car, and he hoped we would give the Municipal Council a good talking in about the condition of the roads. Talking seriously, the roads around Strathmore, are roads only by courtesy, with the exception of the Government highways, and the man with a load of grain, or a car, finds it difficult to make his way through them. The Council's defence is that the taxpayers insist on economy, and did not leave them any money to spend on road work. However, the gain in decreased taxation is more than offset by the increased cost of sending grain to market. A similar condition of affairs exists throughout the province, and several other points in the district where traffic converges and the soil is light. The Town of Strathmore has also some bad roads to the elevator approaches. A proposal was made to place straw on the roads, which has helped in former years, but objection was taken on the ground that someone's car might set fire to the straw, and be destroyed, if flatted. But surely something can be done.

ALBERTA'S RECORD CROP

Alberta's crop will be three times greater than normal this year, according to Ernest H. Goffey, chief of the agricultural branch of the Dominion Bureau of Statistics, who has just returned to Ottawa after making a survey of conditions and arranging with the provincial departments for the co-operative collection of crop statistics.

SHIPMENTS VIA PACIFIC COAST

Despite the strike of longshoremen at Pacific Coast ports, grain shipments through that outlet have been on per cent, greater than during any previous year according to Canadian National Railway officials from the west who are in Winnipeg present.

STOCKER AND FEEDER SHOW.
A stocker and feeder show is being
held in Lethbridge during the coming
week, along similar lines to that held
some time ago in Calgary.

Slats' Diary

Friday—It was a twofold to a son
today about 1 of his old former friends
which he was to go to
school with him and he
would all ways would
be a going to college
and etc. and he sent
the man did the man
ever get to finish up his
education. But the man
did not he hadn't got
to finish up his educa-
tion because he had
went and died in the
form of a old Bachelor.
Saturday—well pa got
in had gone today on
a very serious propo-
sition, one of my old lady friends
was a going on a long trip across the
country. And then 1 of her friends
over in the city had died. She sent
pa down town to get 2 Bibles for the
same time and send them to the
various ladies in question. Twelve
lady called her up on the long line
the 1 which is still living, and
told her to get something for
sending flowers with a notice like
the which was at first. Then he
went to call a light and he was
sent her get put on the other side
but he kept saying that it was
Good Luck.

Sunday—Pa and the girls went
to be a rule by Mr. Gilson a plan to
go to the house he shows as nervous
nobody else can hear the service
and sleep neither.
Monday—well I study got pretty
near stuff saved to give a birthday
present for pa. I had my eye on a
pair of cuff links but when I went to
price they cost so much more I expected
to rather than disappoint him I had
them changed to be sure.

Tuesday—Pa was talking about
the good old fashioned days and when
we were young and he said like him
the difference was between a old fashion-
laid girl and them of the present
day. He said well for instance the
girls in ancient times like to like
to make up but the modern girls like
to like.

Wednesday—Was invited out to Teds
new home in the country and he
said he was only 15 minutes walk from
the car line 15 minutes walk if you run
behind him.

Thursday—1 of our neighbors boy
has been studying to get well power and
was setting him tonight if it had
increased his will power he said O
wonderfully. I have got twice as
much as I did have but I don't know
to do with it.

Contract Holders
Decide to Fight

(Continued from another page)
bated until the early hours of Wed-
nesday morning.

Will C.P.R. Fight
"We have always been sub-
scribed by the contract holders to
this thing through, and we will take it
to the Fritz court is necessary," said
W. D. Evans, the secretary. "If the
C.P.R. leaves a well against you, just
notify the secretary of your organiza-
tion. We will file the defense, make
preparations for the trial and you can
go on with your farming without wor-
rying. The Company can't halt the
20,000 contract holders up in court at
once, so the thing will very likely de-
velop into a test case. We are pre-
pared to fight the railway company
if they are not prepared even to ad-
vance one argument why they cannot
comply with the requests that we have
made."

Among those present were:
T. Bennett, C. A. Craig, Langdon;
S. F. Garbutt, D. E. Englund, Strath-
more; W. H. Burch, Frank J. Belling,
Bridgman; Carl Garfield, J. M. McPherson;

WANTS LAND FOR ESTHONIANS
—O—
Representing large numbers of
people in Estonia who would find
farm homes in western Canada, Sir
John Pika, a native of that country
who was decorated by the British
government for services during the
war, was a visitor to the government
buildings the past week. He has been
invited by the federal government to
make a survey of the west with a view
to finding locations for settlers from
his native land.

NOTICE
—O—
NOTICE IS HEREBY GIVEN that in
accordance with the provisions of The
Municipal Act, the undersigned has
filed the necessary memorial and
plans required by Section 13 and 15
of the said Act, with the Commissioner
of the City of Calgary, Alberta.
The applicant applies for the right
to divert sufficient water per annum
from Little Crowfoot creek at a point
on the south-east quarter of section 24,
township 24, range 22, west of the 4th
meridian, for irrigation purposes, and
for the right to construct the neces-
sary works, as shown by the memorial
and plans filed, to enable the water
so diverted to be used for the said ir-
rigation purposes on the following
lands, viz: the South-west quarter of
section 27 and the Northeast quarter
of section 22, township 24, range 22,
west of the 4th meridian.
57 The South-east quarter of section 27
is also affected by right of way for
the proposed works.
DATED at Standard, Alta., this 27th
day of August, 1923.
L. H. LAVENDERSEN,
Applicant

**Notice to Citizens
FIRE PREVENTION**
—O—
The Mayor and Council of
the Town of Strathmore re-
quest all householders to re-
quest all householders to thor-
oughly cleaned up, and stove
pipes, chimneys, furnaces,
etc., examined and thoroughly
repaired before winter
sets in.

Many fires are caused by
neglect or carelessness, and
every citizen should do his
or her best to secure preven-
tion of outbreaks.

A Government Inspector
will be in the district shortly
and anyone whose premises
are found unsafe will be
dealt with according to law.

F. R. LILLY,
Secretary
